"NCAC is truly a unique resource to the regional nonprofit community. They were able to provide crucial guidance for NeighborWorks during a recent geographic and programmatic expansion effort, and we still regularly takes advantage of their customized grant-seeking tools, training services, and technical assistance to advance our mission and to strengthen the governance of our organization. We would highly recommend NCAC membership to any nonprofit organization seeking to have a positive impact in northeastern Pennsylvania."

"Sincere gratitude goes to NCAC for the success of The Friendly Community Center. Their many research sources and educational programs helped with our fundraising efforts. They offered venues that gave us the opportunity to personally tell our story to important funders. Plus, NCAC provided guidance and support that resulted in a grant of \$200,000 towards the completion of our capital campaign and timely opening of the Center. Every nonprofit organization should take advantage of the many benefits of membership with NCAC!"
